

28th EORTC-NCI-AACR Programme Overview

Tuesday 29 November 2016		Wednesday 30 November 2016		Thursday 1 December 2016	Friday 2 December 2016	
Room 14 (2000 pax)		Room 14 (2000 pax)	Room 13 (900 pax)	Room 14 (2000 pax)	Room 14 (2000 pax)	
10:00	Clinical Trial Methodology Workshop	09:00	Workshop 1	09:00	Plenary Session 4	
			Macrophage-Targeted Immunotherapeutic Agents		New Horizons for Epigenetic Modulators	
12:00	<i>Lunch Break 12.00-13.00</i>	10:30	<i>Coffee Break</i>		10:30	<i>Coffee Break</i>
13:00	Opening Ceremony	11:00	Workshop 3	11:00	Plenary session 5	
13:05	<i>Michel Clavel Lecture</i>	12:35	Why Antibody Drug Conjugates (ADC) Do Not Work?	12:30	Liquid biopsy - Practical Applications in the Clinic	
13:50	New Frontiers in Molecular Guided Therapy	14:30	Regulatory Session	14:00	Regulatory Session	
13:50	<i>Keynote Lecture</i>	15:30	Plenary Session 2	15:30	Plenary Session 6	
14:35	Tumour Microenvironment and Its Role in Drug Development		Proffered Papers	16:30	Proffered Papers	
15:05	<i>Coffee Break</i>	16:30	<i>Coffee Break</i>	17:00	Plenary Session 7	
16:35	Degrans : Degradation Based Therapeutics	17:00	Plenary Session 3	18:30	Cellular Therapy	
18:30	Welcome Reception and Poster Viewing (Exhibition Hall)	18:30	Exploiting Genomic Instability as a Target			

Exhibition & Poster Viewing 11:45 - 18:30

Exhibition & Poster Viewing 10:15 - 17:00

Exhibition & Poster Viewing 10:15 - 17:00

Posters
Chemoprevention
Molecular targeted agents I
Other
Paediatric Oncology
Preclinical Models
Radiation Interactive Agents

Posters
Clinical Trial Methodology
Drug Delivery
Drug Design
Drug Resistance and Modifiers
Drug Screening
Drug Synthesis
Epigenetic modulators
Immunotherapy

Posters
Animal Models
Cytotoxics
DNA Repair Modulation
Molecular targeted agents II
New Therapies with Pleiotropic Activity
